

THE MORNING POST.

MONDAY, MAY 5, 1834.

NOTICE.—On Monday next, the 12th of this month, the size and price of this paper will be increased. It is now nearly double the size which it was when its publication was commenced at FOUR DOLLARS PER ANNUM—we shall still further enlarge it, and otherwise improve its mechanical appearance, as stated above, on the 12th instant, from which time its price will be SIX DOLLARS PER ANNUM.—Those who have already paid in advance will receive their papers at the original rate until the expiration of the term for which they have paid, and those who may be unwilling to continue to take it upon the new conditions, are requested to settle their accounts and give notice of their desire to discontinue previous to the time of alteration. The daily publication of the Post now amounts to twenty-three hundred copies, for which we have upwards of TWO THOUSAND SUBSCRIBERS—this great circulation, with such improvements as we shall attempt to make in the best papers for the insertion of advertisements in the city.

TO PRINTERS.—The type upon which this paper is printed, brevier and nonpareil, will be sold for twenty cents per pound, if applied for immediately.

STENOGRAPHIC GLIMSES OF CONGRESS.

No. 129.

Washington, April 30, 1834.—Mr Clay made a speech to-day on the Protest, characterised by his usual energy, hatred, and malice against the President; and more than his usual eloquence. I think it is about the best performance of his I have ever attended. He throws more emotion into his oratory than any speaker I have heard; which makes one lament, how fine an actor is lost in the orator. Nature designed him for the stage, not the Senate; and he exhibits himself too much as an orator, ever to make a profound statesman.

He argued but very little—it is not his way—and it is not his forte: he dealt in denunciations and declamation. He laid great stress on the privileges of the Senate—particularly the right of freedom of debate; he affected to think that the Protest was designed to destroy it; but I suppose he never for once thought, that if a Secretary of State should challenge a Senator to mortal combat for words—nay a word, the correlative of "purity"—spoken in debate, it would be any breach of privilege. This is as he understands Senatorial privileges—the privilege he claims, whether Senator or Secretary, of abusing every body with impunity.

He commenced his speech by saying that he never knew an administration die with so little ease and so much agony, as this; never saw such scenes of plunges, fits and paroxysms. Why, has he so soon forgotten Mr Adams administration, all of which he saw, and a small part of which was? That died not a very easy death; it did not pass off as Falstaff did, "like any chrysum child." But he is right about the present administration; its death will be so hard and lingering, that it will kill him, and outlive him.

He discoursed about phrenology next; and thought the President had the organ of destructiveness remarkably developed. We entirely agree with him there; and so, we think, will Biddle, the Bank, and the aristocrats—aye, and the "Thigs." He allowed that the Old Hero displayed his predominant bump at New Orleans, with great credit to his country—and he said posterity would honor him for it. How much did Mr Clay win of Goulbourn, the British Commissioner, on the issue of this battle? A thousand sovereigns, I think. Mr Clay knew on whose patriotism and prowess to bet; and the people have followed his example—for a vast majority still bet upon the Hero's venerable head—sure to win whatever they stake.

He went into an examination of the doctrines of the Protest, after his usual candid manner, and found nothing but usurpation. The request to have it entered on the Journal was an usurpation; the right to see the laws executed, an usurpation; in short, he demonstrated, to his own satisfaction, that he had no right to take any responsibility, and could be holden responsible for nothing. In short, he made the President a sheer supernumerary, whose office ought to be abolished, and the salary go for the benefit of the American System and Internal Improvements. Clay is queer; but he does not *keer*; nor I neither. I confess myself highly amused and entertained by him to day; and as he expressed his regret to-day for abusing the late Timothy Pickens, I shall certainly confess mine, if I do not do him, the orator, justice; and if I come short of justice, it will be because I have too much milk of human kindness in me. One thing, however, is certain, that no man can injure Mr Clay so much as he is injuring himself every day, by that indiscriminate violence that disgusts his own partisans, while it destroys them and himself.

Where and what was Mr Clay in 1842?—A great leader of a great party; and a Commissioner at Ghent. Where is he, and what is he, now? A leading orator indeed in a desperate faction, that dare not trust one another so far as they can slay a bull by the tail; and will not unite in any measure, except in opposition to the administration! Here is where he is, and what he is. His fame will rest upon his oratory; but his "correlative," upon his... patriotism.

The peroration was quite characteristic.—He said the Protest was the last stroke on the last nail in the coffin of Jacksonism, though he wished the President might live a thousand years—he will many thousands, in spite of the orator's wishes or speeches.

Mr Sprague presented a distressee from Kennebec county, Maine, and made the usual funeral services over the corpse of the deposit, at the same time he took occasion to make another speech on the Protest. He talked about the whigs and the democratic county of Kennebec; and said there was but one voice from Maine.

Mr Shepley made a brief reply, admitting that there was but one voice from Maine, if that only be regarded which "presented" memorials. The other voice of the State, spoken by 70,000 voters, would utter nothing to contradict the memorials of a few hundred—besides thirty-three voices from Eastport, or Lubec—forget which. There was a voice on the other side from the Legislature: they did not utter their voice at distressee meetings and in distressee memorials; but silently at the ballot box.

But Mr Sprague, like Canning, had the last word. It would have distressed him to have been denied it; and Mr Shepley could afford to let him have it.

Reis Effendi.

¶ The Bank Committee did not leave Philadelphia, for Washington, as stated in the Philadelphia Intelligencer of the 30th ult.—They are still in that city, prosecuting the duties of their appointment.

The Concert at Boylston Hall was very numerous and fashionably attended on Saturday evening. The Woods will appear in *Fra Diavolo*, at the Tremont, this evening.

FIFTEEN DAYS LATER.

The ship *Victoria*, at New York, has brought London dates to the 3d of April, and Liverpool to the 4th, inclusive. The news is not important.

England.—In the Commons, on the 24th of March, Lord John Russell, in reply to a question from an honorable member, said that it was the intention of government to bring in a bill to amend the registration of voters under the reform act.

France.—The Ministers have succeeded in carrying their laws on the subject of associations, nearly in the state in which they first proposed it—all the amendments at all calculated either to modify its oppressive character, or even to limit its duration have been rejected by large majorities.

Spain.—Letters from Madrid of the 19th March, state that the Government has determined on a formal invasion of Portugal, for the purpose of expelling Don Carlos, and thus putting a stop to the intrigues of which that country has been the focus.

Portugal.—An attack was made on the 3d of March, by General Bernardo de Sa, upon the Miguelite encampment at St. Bartholomew de Paxao. He was successful, pursued the enemy a long distance, and took possession of Villa Real and Castro Marim.

Holland and Belgium.—Some warlike preparations and movements on the part of Holland, had created uneasiness at Brussels; and it had been asserted in the Paris papers that the Leopold had applied to the Cabinet of the Tuilleries for an auxiliary aid of French troops, to repel the threatened, or rather the imagined invasion. The French and English Ministers at the Hague, moreover, had called upon the King of Holland to explain himself and his intentions. King William's reply was a positive denial of any intention of aggression.

The city of Pasta, in South America, containing a population of 12,000 to 15,000 inhabitants, was destroyed by an earthquake on the 22d of Jan. by which fifty lives were lost.

The city of Popayan, containing near 30,000 inhabitants, has also been destroyed. The entire country, for leagues around Pasta, has been converted into a scene of complete desolation and mourning.

French Claims.—Mr Jay presented to the Chamber of Deputies of France, in the name of the Committee appointed to examine the Convention between France and the United States, concluded on the 4th of July, 1831, a long report, in March last, taking a view of the whole ground of controversy, giving a succinct account of the famous English orders in Council, the French decrees, and of the American retaliatory and restrictive system, and also of the nature and character of our claims, with a history of the negotiations on the subject, from Mr Barlow's mission in 1812, to the successful effort of Mr Rives in 1831—and ending with proposing a bill, a copy of which we subjoin, to enable ministers to carry the treaty into effect. The report, which is very long, is an able and candid document, very complimentary to this country, and highly republican in its tone. It is published at length in the Washington Globe, of May the first, and is well worth perusal. We are pleased that the prospect for a speedy payment of these just and long suspended claims now appears fair.

The following is the conclusion of the report, and the bill proposed:—

"From these considerations, which I have successively indicated, and which are submitted for your impartial examination, your Committee propose the adoption of the following BILL.

ARTICLE 1. The Minister of Finance is authorized to take the necessary measures for carrying into effect the first and second articles of the Treaty signed on the 4th of July, 1831, between the King of the French and the United States of America, the ratifications whereof were exchanged at Washington on the 2d of February, 1832, according to which the sum of twenty-five millions of francs is to be paid by France.

ART. 2. The Minister of Finance shall provide for the execution of the arrangements resulting from the 3d and 4th articles of said Treaty, by which the United States engage to pay to France 1,500,000 francs, in order to free themselves from all the claims of French citizens, on the public treasury. The disposal and distribution of the above sum shall be the object of a special account of debtor and creditor in the budgets of the State."

Col. Crockett will appear in public to-day—the Committee of Public Safety should call a meeting in State street on the occasion. The New York Standard gives the following sketch of the Colonel in that city:

"The Colonel mounted the auctioneer's steps, and spoke for about ten minutes, in which space of time, he demolished the administration, rowed up the House of Representatives, vetoed the President, and proved to a demonstration, that the great wig party of the world, is the greatest party extant. We confess that we were posed by some of the Colonel's arguments and illustrations. He has a merry cock of the eye that speaks volumes, a good-natured chuckle, which is as contagious as the clatter of a barn-yard fowl, and a whimsical twist of features, that, like old Barnes' contortions, brings down peals of laughing applause. The audience were delighted. 'He is not as fierce as McDuffie,' said one, 'but he is far more natural; he is not as graceful as Preston,' said another, 'but he has a more taking manner; he is less cold than Webster,' said a third, 'but he does not speak in public on Sundays.' But the prevailing opinion among the crowd was, that of all the orators in Exchanges and public streets, who have lately gone about the land seeking whom they might convince, the Colonel is decidedly the greatest. His views of the constitution are novel and original—his manner is western and indigenous—his command of the American language is immense, and his smile is absolutely exorcising. We take back all that we said a few days ago about the self-created autocrat of the Wig party. The Colonel is at the head of that party. He is its Magnus Apollo, its leader, its great Exchange and street orator, and what is more, its most successful clown. The Merchants' Exchange has seen strange sights, but until yesterday it was never made the scene of the exhibition of a Congressional Merry Andrew."

Col. Crockett and Gen. McDuffie, the representatives of the Western and Southern Wigs, have been received by the Philadelphia Wigs with equal marks of respect and enthusiasm—Col. Pluck formerly engrossed the honors of the Philadelphia Wigs.

MEETING AT SOUTH BOSTON.

Pursuant to public notice, a meeting of the citizens of South Boston was held at Harding's Hall, on Saturday evening, 3d inst. Thomas Richardson, Esq. was called to the Chair, and Freeman Hunt appointed Secretary. The meeting was addressed by Messrs Hugh Montgomery, Alvin Simonds, Josiah Dunham Jr., and Ebenezer Hayward. And the following Resolutions, offered by Mr Dunham, were unanimously adopted:—

Resolved, That Public Schools are most important institutions in our Republic, and that every patriot and every lover of science and good morals, has a deep interest in having them preserved and continued under the best possible regulations.

Resolved, That whatever errors may exist in the management of the Public Schools in Boston, the proposed new law for organizing the School Committee will, instead of improving them, operate greatly to their disadvantage.

Resolved, That in our opinion the said law is aristocratic in its character; that if adopted, its tendency will be to render the committee and the teachers in a great measure above the wishes and reasonable requests of the people; to create a monopoly of influence fatal to the welfare of the children of the poorer and middle classes.

Resolved, That in our opinion a majority at least of the School Committee should be selected by the people in their respective wards, and that the choice of the whole Board on a general ticket, is calculated to introduce party, political, religious and sectional feelings into the election of a Board from which all these considerations should be excluded.

Resolved, That it be earnestly recommended to the voters to attend the meeting at Faneuil Hall, on Monday forenoon, and deposit a "NO" to the proposed law.

Voted, That Messrs Josiah Dunham, Jr. Alvin Simonds, E. Hayward, and Freeman Hunt, be a committee to distribute votes, in accordance with these resolutions.

Voted, That the proceedings of this meeting be signed by the Chairman and Secretary and published in the several newspapers on Monday.

THOMAS RICHARDSON, Chairman.
FREEMAN HUNT, Sec'y.

CONGRESS.

In the Senate, on Wednesday, after some unimportant business, the special order was taken up, being the resolutions offered by Mr Poindexter, as modified by Mr Clay. The question being on the motion of Mr Bibb to amend, Mr Clay addressed the Senate until a quarter after 3 o'clock, when on motion of Mr Wright, the Senate adj.

In the House, Mr Adams gave notice to the House that he should, to-morrow, ask permission to introduce a bill forbidding the Corporations of Washington, Alexandria, and Georgetown, from issuing promissory notes below the denomination of ten dollars.

The House then went into Committee of the Whole. The bill to regulate the value of Foreign Silver Coins, in the United States, was taken up, and passed through Committee without amendment. Also the bill to extend the duration of the Commission under the French Treaty, from two years to three. Also a bill making a similar extension under the Neapolitan Treaty, of six months. The Committee then proceeded to consider the general Appropriation Bill. The whole remainder of the day was spent in the discussion of the details of the bill without getting through them.

The Senate spent a great part of Thursday in the transaction of Executive business.

The House was occupied by the General Appropriation Bill.

Late on Thursday afternoon, the Senate again rejected the four Government Directors of the United States Bank, nominated to that body by the President. The injunction of secrecy has been removed, and the whole proceedings ordered to be printed.

Judge M'Leat is decidedly opposed to the U. S. Bank, and always has been. He was in Congress when the present Bank was chartered, and voted against it in every shape in which it was presented, and has recently declared that if he were now in Congress, he would vote against its re-charter. He has also expressed the opinion, that the President had the power to remove the Secretary of the Treasury, for the purpose which he did, and that the deposits ought not to be returned.

From Jamaica.—By the J. W. Cater, we have our Kingston papers to the 4th ult.

The new Governor, the Marquis of Sligo, lady, and eight children, had arrived at Kingston. He landed on the 5th ultimo, and was received in due form, amidst the sound of cannon, &c. and proceeded to the seat of Government. He was much delighted to find the island in such a state of tranquillity, and his proclamation gave general satisfaction.

The United States Ship *Vandalia*, Captain Webb, arrived at Kingston in three days from Port au Prince, on the 7th ult. and sailed on the 10th for Havana. The U. S. Ship *St. Louis*, Newell, sailed for do. same day.—N. Y. Gazette.

Steamboat Explosion.—A letter to the Postmaster, from Columbus, Georgia, announces that the Mail Boat *Star of the West*, plying between New Orleans and Mobile, burst her boiler on the 18th ult. killed two persons, and injured others. "All is confusion, and no mail from New Orleans, says a bill from the Mobile Post Office."

Another.—By the St. Louis Republican of the 17th ult. we learn that the steamboat *St. Louis*, bound to Galena, collapsed one of her boilers on the 12th, by which 12 or 14 persons were either killed or seriously wounded. The accident happened (says the Republican) while endeavoring to pass the Des Moines Rapids. We understand that the stern of the boat stuck upon a rock and careened her over—the water in the boilers of course running to the lower side. In this situation the boat remained for twenty minutes or half an hour; when she righted, and the sudden return of the water into the boiler produced an instantaneous explosion. The names of the sufferers, as far as we have been enabled to gather them, are—Perkins, the engineer, killed; Miss Moore blown overboard and lost; Mrs. Mode, and son, dangerously scalded, and three other children killed; Mrs. Lockett, from Mil Creek, Illinois, badly scalded; Isaac Marsdyng when the accounts left; three German dangerously scalded, and three other persons slightly injured. The *St. Louis* was chartered for the trip from New Orleans to Galena.

The United States Insurance Company, at Baltimore, have failed. Among other things, they did guarantee business in merchants' notes, issuing their order notes in exchange for commercial paper, charging a commission. The debts of the Company are said in letters from Baltimore, to amount to \$700,000.—*Jour. Com.*

ENGINE NO. 3.

At a special meeting of the Washington Engine Company, No. 3, held at the Union Restorator, on Friday evening, May 2, the following Resolutions were adopted:—

Whereas, in the opinion of this Company, the duty performed by the members of the Boston Fire Department, is a voluntary sacrifice on their part, of time and health, and often performed at the risk of life itself, without the hopes of any other reward, than the gratitude of their fellow citizens, and the approbation of their own consciences; it is, therefore, with feelings of extreme regret, that we have, for some time past, beheld those that chance has placed over us, pursuing a course which would eventually reduce us to a state of servitude, more befitting the crouching slaves of a relentless tyrant, than the free citizens of a free Republic.

Resolved, That whilst we entertain for a part of the Board of Engineers, feelings of respect and gratitude; for the rest, we cannot, we will not, yield them any other boon than the merited contempt of independent Firemen.

Resolved, That whilst we are ever willing to obey all reasonable orders, from our superiors, we cannot submit to them the absolute control of our persons, either going to, whilst at, or coming from a fire, or at any other time when we may be upon duty.

Resolved, Therefore, that, in our opinion, the present Chief Engineer has at various times, and in various ways, displayed towards us a spirit of petty tyranny, which would, if submitted to, have exposed us to the merited contempt of our fellow Firemen, and the just indignation of all honorable men.

Resolved, That the communication received by us from a part of the Board of Engineers, wherein we are charged with having repeatedly insulted, and wilfully disobeyed the orders of the Chief Engineer, has, in our opinion, no just foundation, and is only used as a vent for private spleen against men, who will not submit to be slaves.

Resolved, That the power assumed at various times, by the Chief Engineer, such as ordering us, when fatigued by several hours hard duty, to labor harder than was consistent with our feelings, and when we refused, using towards us language which might well befit the bullying champion of the ring, but would disgrace the lowest citizen in humble life—and, upon a late occasion, when we were called on duty, during that hour which custom assigns the laboring man for rest and refreshment, for endeavoring to prevent us from returning quickly with our engine, so as to be again at our work before the expiration of time allowed us, and thereby causing our employer to dock the customary one fourth of our daily wages, is an unjust encroachment upon the rights of a class of citizens whose services entitle them to at least some share of respect, and whose interest should not always be sacrificed.

Resolved, That as we cannot expect to receive, what has always been denied to others in like circumstances, viz.—a fair and candid hearing, or a cool and candid investigation of FACTS—we, therefore, conscious of the rectitude of our own actions, and firmly impressed with the belief, that a liberal and enlightened public will do us justice, hereby agree to surrender to the Mayor and Aldermen the Engine and Apparatus entrusted to our care, and request of them a discharge from the Department.

Resolved, That we hereby pledge ourselves, each to the other, that we will not again join the Boston Fire Department, whilst the present incumbent fills the office of Chief Engineer.

Resolved, That the above Resolutions be signed by the Chairman and Secretary, and published in the papers of this city.

SAM'L PITTS, Chairman.

WILLIAM DE CARTERET, Sec'y.

According to the Harrisburgh Chronicle, all the different lines of the Pennsylvania Canals and Rail Roads, except North Branch, are in good order. Upwards of six thousand dollars had been received in tolls at Portsmouth and Harrisburgh, up to the 25th ult.

The quantity of rain which fell in Philadelphia since the first of January, was 9.56 inches, up to May 1st.

The Hon. Mahlon Dickerson has accepted the invitation to deliver the address before the literary societies of Princeton College, at the annual commencement in September.

Thomas K. Carroll and John N. Steele, are candidates for Congress, in the district of Maryland, lately represented by Littleton P. Dennis, deceased.

The Cooper Benefit in New Orleans yielded \$2,500.

For the Morning Post.

Our School System.—Mr Greene—An attempt will be made this day to adopt an Act passed at the last session of the Massachusetts Legislature, which takes from the different Wards the right of selecting their own representatives in our School Committee Board. It is to be hoped that our citizens will not thus surrender the republican privilege of choosing their own officers to any central committee. The Common Council might, with equal propriety, be chosen in the same way—and that is probably the intention of the projectors of this new-fangled method. We consider it an unwarranted assumption of power, on the part of the City Government, to petition the Legislature for this alteration in the City Charter, without first consulting the people of Boston. We trust our citizens will assemble in their might at the Cradle of Liberty, and put their *Veto* upon this anti-republican act.

NORTH END.

Col. Davy Crockett arrived in this city yesterday, and put up at the Tremont House. He will visit Harding's Gallery this morning, at half past 9 o'clock.

MARRIED.

In this city, on Thursday, by Rev Mr Young, George O. Farmer to Sarah Ann Pentland.
By Rev Mr Jenks, Samuel D. Bates to Sarah B. Whitney.
On Thursday, by Rev Mr Taylor, David Weston to Fhebe Middleton.
In Hingham, John Haynes to Persis Whiting.

DIED.

In this city, Willard Williams, 46.
On the 27th ult. Nathan A. Blake, son of John T. Hale, 15 mos.
On the 1st inst. Robert R. Allen, merchant, 25.
Wm. Davis, 57; Thomas Coyle, 30; Luke Waddy, 40.
In Charlestown, on Thursday last, Helen daughter of Capt Robert B. Edes, 18 mos.

LIFE IS VALUABLE.—The American Cork Company are now ready to receive orders for ground, grained, rasped, or pulverized cork, which article is patented for the following purposes, viz: Filling boots, mattresses, sofas, chairs, and carriages, and stuffing cushions and collars for horses, and for the purpose and uses for which feathers, hair, moss, chaff, straw and other substances have been heretofore used. The company are desirous at this time to introduce to the notice of the American people the

CORK MATTRASSES,
Or, **SCAMEN'S FLOATING BED,**
The company have now on hand, specimens of Cork Mattresses, varying in price from five to ten dollars, and are now ready to execute orders at short notice. The cork will not absorb in such persons as choose to manufacture for themselves.

HENRY KNAPP, Agent,
Head of Western Avenue.

These Mattresses are also for sale by **MRS. MELLER,** dealer in Furniture, Beds, Mattresses, &c. chambers corner of Union and Ann streets, Boston.

ASA D. GOVE, General Agent, at New Orleans.

Agents will soon be appointed in all the principal cities in the United States, of which due notice will be given.

Extract from a letter written by Dr. J. C. Warren on the subject, dated March 24, 1834—

"I find it a valuable invention, especially for vessels, and it is generally used, it might be the means of saving life on many occasions. In regard to health, I believe it to be unobjectionable."

Signed, **J. C. WARREN,**
Extract of a letter from Dr. Waterhouse, dated August 12th, 1833—

"I have examined and tried your Chair Cushions filled with grated cork, and am pleased with them. Most people would, I believe, give the preference to those filled with grated cork. I am pleased with their property of sustaining a person on the water, in case of shipwreck, fire, or explosion, and particularly recommend them for use in steamboats, and will venture to predict their introduction."

Signed, **BENJ. WATERHOUSE,**
Marine Society, Portland, Me.

"I am perfectly satisfied that it will answer the purpose of a comfortable bed for seamen, and a life preserver in time of shipwreck."

Signed, **ENOCH PREBLE,**
Certificates of three gentlemen who witnessed the exhibition in Boston harbor—

"We, the undersigned, do hereby certify, that we were present at the exhibition made by Mr. Knapp, on Saturday, the 10th inst., with a Mattress, filled with grated cork, to sustain a person on the water, from the Castle to Long wharf, which, in our judgment, we are perfectly satisfied as respects its property in securing persons from shipwreck as intended. We do therefore recommend their use, particularly to mariners, and venture to say, that their introduction on board of vessels, will prove highly important and valuable hereafter."

Boston, August 15th, 1833. eops apl0

IRON SAFES.—S. A. & W. G. PIERCE, Agents for selling Gaylor's Patent Double Fire Proof Wrought Iron Chests and Safes, 370 Washington street, have now on hand a large assortment comprising all the sizes and kinds which are calculated for the use of Banks, Insurance Offices, Town Records, Merchants, and others.

The above Chests are double throughout in all their parts, with double doors, each secured with Chubb's Patent Detector Locks, which cannot be picked; and the Chest is as completely Fire Proof as any vault or chest can be made. Proof of which can be seen by those who will take the trouble to call at the Agent's Store and examine a Double Chest, which has passed through a very severe fire, and preserved a valuable lot of books and papers, belonging to John S. Abbott, Esq., whose name is attached to the following certificate:

"This is to certify, that one of the above described Double Safes, which I purchased of the Messrs S. A. & W. G. Pierce, was in my office in the Agent's Store, on the 24th of November last, when the building was burnt down, and the safe, weighing 700 lbs fell from the second story into the cellar, and was exposed to an intense heat for nearly three hours. It was for a long time literally red hot. It contained all the account books, notes, and court papers, that were in my office, and no paper was in the least degree burnt or rendered illegible."

Signed, **JOHN S. ABBOTT,**
Thomaston, January 28, 1834.

The above Chest, and some of the papers which were in it at the time of the fire, are now at the Agent's Store, corner of Essex and Washington streets, and any individual or corporation who will call at the Agent's Store for the protection of their books and papers, will find it for their advantage to call and examine them, and they will be perfectly satisfied that Gaylor's Double Safes are what they are represented to be—FIRE PROOF; and they will be still further satisfied that none other but the Double Safe will be able to protect Gaylor's Double Safes, which are the patent article, and can only be legally purchased in this city of S. A. & W. G. PIERCE, who are his authorized Agents. tf jan 31

BLACKING.—Liquid, Paste, and Ponge—also a leather preservative, comprising all the kinds now in use, are manufactured and for sale at the Blacking Establishment, corner of the Western Avenue.

KNAPP'S JAPAN LIQUID BLACKING, three sizes, in stone jugs. The proprietor has the pleasure to inform the public that from long experience in the business, he has been able to make great improvements in the article, so much so, it is believed, no other kind approaches near it in quality, without the exception of Day & Martin's, which, by the way, is not considered so good. A small quantity, made expressly for retailing, now on hand, and offered to the public on reasonable terms—warranted to give the most entire satisfaction. The smallest orders gratefully received.

KNAPP'S CONDENSED OIL PASTE BLACKING is offered as above, by the single drop, and in a cask. This article is pronounced by the most competent and disinterested judges to be superior to any other kind now known in this market; and warranted to give satisfaction, or money refunded to the purchaser. It is prepared with oil, and its shining qualities are believed to be unequalled. It will be sold on liberal terms, and to wholesale dealers in the article, the discount will be satisfactory.

KNAPP'S JAPAN SPONGE BLACKING, for sale as above, by the barrel, gallon, or dozen. It is sufficient to say of this article, it sustains the highest reputation of any article of the kind manufactured in this part of the country, and it is the intention of the manufacturer to spare no pains or expense in the preparation of the same.

KNAPP'S LEATHER PRESERVATIVE, for sale as above, (indispensable to every man who regards his health or economy). First, it renders the leather impervious to water, also makes it soft and pliable, and of course prevents it from cracking, which is the first of symptoms of decay in leather. It is believed that one pair of boots with this article applied properly, will wear as long as two with nothing of the kind used on them; and for the preservation of leather, should be used in summer as well as winter.

PATENT CORK FOR COLLARS AND SADDLES.—The American Cork Company offer for sale, ground or grated Cork for stuffing Horse Collars and Saddles. The utility of the article has been fully tested, the past year, in a great number of cases where horses' breasts had become sore and inflamed by the use of the ordinary collars.

It has been proved beyond a doubt, to surpass every other substance that has yet been known or used for that purpose. The fact that it will not become matted, and is a non-conductor of heat, must convince every person of its value. But one farther advantage is, these collars fit the breast of a horse immediately on their application, which is not the case with any other material. A certificate as to the utility of the article, is submitted.

"We the subscribers, having made use of the Cork Horse Collars, made from ground or grated Cork, are fully satisfied that they surpass collars made of hair, wool, or any other substance whatever that we have been acquainted with, for the following reasons:—first, the elasticity is sufficient; secondly, it being a non-conductor of heat, does not heat the breast as all other substances do; thirdly, it fits itself to any horse's breast immediately on its application; and fourthly, it has cured every horse's breast we have applied it to, or known it to be done."

Signed, **PETER STEVENS,** Stage Proprietor,
HENRY A. HOVEY, Manufacturer,
E. W. LAWSON, Stage Agent,
O. B. KNAPP, Collar Maker.

The article is manufactured at the Company's Warehouse, Head of the Western Avenue, Boston, and is for sale by **DAVID LEWIS,** dealer in Saddlery Hardware, No 38 Kibby st. **HENRY KNAPP,** General Agent for the United States. eopistf mar 25

CHARLES COOK.

DR. WARNER'S PURIFYING VEGETABLE POWDERS, OR FAMILY BITTERS.

Yielding its strength to Wine or Water. As a security against counterfeits, the label will be signed by the wholesale agent, PARKER BARNES. Likewise the steel plate will be observed, as there is a spurious article, which has been offered to the public.

In the spring of the year, every one is troubled more or less with a propensity to sleep, and by the use of this corrective it can be obviated entirely. For purifying and eradicating all kinds of humors from the blood, even if they appear externally in the face, or any part of the body, it is much better and far more efficacious than any external application; in fact I seldom knew it to fail in proving effectual. The patient will find it operates more in the blood than any other preparation they ever referred to; it is far better than salts, sulphur, cream tartar, or any preparation of this kind, for when the blood is once purified with this corrective, it remains in an even temperature through the summer months. For a foul stomach, jaundice, general debility, weakness of limbs, want of appetite, biliousness and liver complaints, headache, stupor, &c. For the catarrh, which is generally occasioned by the impure state of the blood, there is nothing extant that has proved so efficacious as this purifying corrective. For all the above complaints it is seldom known to fail in proving an effectual remedy.

It is really worth the public attention, as every one is aware of the unpleasant, dull, heavy feeling, which the spring of the year produces; and by the use of this corrective, it can be obviated entirely. Every one who makes use of the above preparation, will be astonished at the mild and gentle effect it has on the blood.

CERTIFICATES.

This is to certify, that I have been troubled in the spring of the summer seasons with a dull and stupid feeling, which very much troubled me while about my business, and by taking some of Warner's Purifying Powders, I have found it perfect remedy, and with confidence recommend it to others who may be similarly afflicted.

Signed, **ELIAS PIKE,**
Boston, April 18th, 1833.

Joseph Moore of Boston, certifies that he has taken Warner's Family Corrective, or Purifying Powder for purifying the blood, and curing of jaundice, and likewise removing the propensity to sleep, and has found it an effectual remedy.

Signed, **JOHN B. FINN,**
I hereby certify that I have taken Warner's Vegetable Purifying Powder for the cure of the jaundice; likewise for purifying the blood, and removing this propensity to sleep, which I am always troubled with in the spring of the year. From the benefit which I have received for the above complaints, I cordially recommend it to all that may be similarly afflicted.

Signed, **JOHN B. FINN,**
Feeling grateful for the benefit which I have received from taking Dr. Warner's Vegetable Bitters, for the cure of the jaundice, weakness of the limbs, want of appetite, indigestion, &c. do recommend it as a safe and efficacious remedy for the above complaints.

Signed, **P. COFFIN,**
Boston, March 1st, 1833.

Other references of its efficacy may be had by calling on the agent. To be had at wholesale of my sole agent in this city, PARKER BARNES, No 424 Washington street, and retail by all the principal Druggists, in Boston and vicinity. 6m-ap 11

COMPOUND CHLORINE TOOTH WASH

For Cleansing and Preserving the Teeth and Gums and Cleansing the Mouth. THE CHLORINE TOOTH WASH effectually cleanses the Teeth, and will answer the purposes of the best dentrifice. It contains no acid or any other substance which can be injurious to the teeth. It will also be found to keep the brush itself free from all impurities.

The Compound Chlorine Tooth Wash has the advantage of Cleansing the mouth also—and of removing whatever is offensive in the breath. It hardens the gums and is a valuable remedy for canker sores, &c. It is also a valuable remedy for the greatest advantage as a gargle for sore throat. In fine it preserves the teeth and mouth in all respects in a clean and healthy condition. It is agreeable to the taste. Gentlemen who are in the habit of using tobacco, will find that the tooth wash will speedily remove all the effects of it from the mouth.

That the public mind be assured of the very salutary effects of this composition, the following recommendations from gentlemen of the highest respectability are submitted.

From J. W. Webster, M. D. Erving Professor of Chemistry in Harvard University.

Harvard University, Cambridge, March 14, 1831.
Messrs. Lowe & Reed, Gentlemen—I have examined the Compound Chlorine Tooth Wash received from you, and have no hesitation in stating my belief that it will answer the purpose for which you have compounded it. I have discovered in it no ingredient which can prove injurious to the teeth.

Yours, &c. **J. W. WEBSTER.**
From Sylvanus Flynt, M. D.

Messrs. Lowe & Reed. Gentlemen—I have frequently administered your Compound Chlorine Tooth Wash in various affections of the mouth and throat—and relief has been immediate and permanent. In a neuralgic affection of the face and head, arising from a practical cause, the use of the Compound Chlorine Tooth Wash acted like a charm. I hesitate not to give it my entire approbation for the purposes for which it was made, and consider it one of the most safe, pleasant, and effectual articles of the kind ever offered to the public.

I am yours, &c. **S. FLYNT.**
Cambridge, Dec. 1831.

From Mr. A. Hayes, Operative Chemist and Superintendent of the Roxbury Chemical Works.

Messrs. Lowe & Reed. Gentlemen—Having examined the bottle of Compound Chlorine Tooth Wash you gave me, and become acquainted with its composition, it affords me pleasure to express my belief that it does not contain any substance in solution of suspension, which can either chemically or mechanically injure the teeth, and observation and experience confirm the opinion that its effects on the mouth, are salutary and very agreeable.

With respect, A. HAYES,
Roxbury Laboratory, Feb. 28, 1832.

For sale by **LOWE & REED,** 24 and 26, Merchants Row—**JOHN WHITE, JR.,** No. 30, School street.

INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS.

ANDERSON'S VEGETABLE SYRUP, for Dyspepsia, Indigestion, Jaundice and Bilious Complaints, weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headache, sour stomach, flatulence and habitus costiveness.

This medicine composed entirely of vegetable substances, is perfectly safe in its operation, and may be given to children or persons of the most delicate habit without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords a strong confirmation of its efficacy, the best commentary upon its virtues, and the best recommendation that can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from indigestion for three years. During this time, he suffered very much from depression of spirits, and was unable to eat and sleep, and side shooting pains over almost the whole system—the food that I ate seemed to pass into my lungs and there remain, giving me great pain attended with a strong degree of heat. Attains I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of anything like indigestion or pressure on the stomach, to take about a tablespoonful of your medicine in the course of a few hours, completely restores me. It has had with me a very wonderful effect in strengthening the stomach and invigorating the whole system, and judging by my own case I consider it to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half; and sold at seventy-five cents each, by Jonathan P. Hall, Jr., No. 1, Union street, John P. Whitwell, Milk street, John J. Brown, near Boylston Market, Erastus St. Holden, near the Western Avenue, Richard A. Newell, Summer st, Boston, Samuel Kipper & Co., Charlestown, E. G. Lemon, Roxbury, aplyt f8

THE GIFTED LADY.

MRS. MOTT, Female Physician, would inform her patients and the public in general, that she has located herself in Boston, at the corner of Lynde and Cambridge streets, where she will continue to administer her Systematic Vegetable Medicines, to those who are desirous of cure in all the complaints incident to the human frame.

The Patent Champon, and Medicated Baths, in connection with the Medicines, will be under her direction for Females, and will be in daily operation—to those who are acquainted with these invaluable Baths, nothing may be said of their value, to those who are not, one trial will convince them of their efficacy. The Baths will be open at all times, to the patients of Physicians, under their prescriptions.

To be had as above, Josephine Dentrice, for whitening the teeth. The Tooth Paste, for preserving them, and lightening the gums. The Hair Oil, with directions. The Ointment, for Salve, for chafes, and Salve for Tooth Ache Drops; The Dolorous Embrocation; Head Ache Drops; Bunion Embrocation; Strengthening Powders, and Stomach Bitters. tf-jan 21

THE PARENT'S CABINET OF AMUSEMENT AND INSTRUCTION.

Also, retailed by most of the Apothecaries and country stores throughout the country. Jan 26

BOSTON TRUSS MANUFACTORY.

J. F. POSTER, Agent. The subscriber having mostly relinquished his former business, will now attend to the business of making, fitting, and repairing Trusses. After having tested Trusses of his own make for fifteen years past, and during that time has been employed in making and fitting Trusses for various individuals, which have proved very efficient in most cases, especially in the cure of the various diseases of the groin, and now offers his services to those who stand in need of the article in confidence of giving entire satisfaction to those who may please to call on him, as he will attend to them personally.

Among the variety of Trusses made and sold by J. F. Poster, are Patent Elastic Spring Trusses, with Spring Bands, Trusses having elastic bands, &c. These give relief in all cases of rupture, and in a large portion produce a perfect cure. They can be worn day and night. Improved Hinge and Pivot Trusses—Unilateral Spring Trusses, and Trusses with ball and socket joints.

The subscriber in consequence of the increasing demand for his Trusses, has now in his employ, a man of as much integrity as any other to be found in the country, for the purpose of making the Truss springs and parts belonging to the same—and one that has served a regular apprenticeship at the business, in Scotland. New springs inserted in Trusses at a small charge.

Price of Trusses, from two to eight dollars. Price of new covering, from one to three dollars. Trusses loaned gratis to such persons as are undergoing repairs. All the Trusses made and sold by J. F. F. will be warranted to the purchaser.

The subscriber is also agent for other Truss makers, and will keep all the American approved kinds on hand. Place of business, 388 Washington street, up stairs, directly opposite Boylston Market, name on the door of a separate and suitable apartment. mar 20

POSITIVE, OR NO PAY.

MRS. HILL'S COUGH DROPS, OR VEGETABLE HEALTH RESTORATIVE.

Prepared entirely from Vegetables. MORE than forty years have now elapsed, since the receipt was given me by my uncle, a celebrated Physician, at a time that I was troubled with a very bad Cough and Cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops on different people, have induced me to put them up in Phials, with directions under the impression it would be a public benefit. And as that is my sole aim—and to convince the public that it is, and as a sure guarantee against quackery and deception, I authorize my agents to return the money to all those that do not get relief by their returning the bottle and directions. Drops, coughs, colds, asthma, particularly of those numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged approbation of those who are now restored to perfect health, as well as many in the decline of life who frankly acknowledge having received great relief from the use of them in the various diseases, such as Coughs, Colds, Asthma, Spitting of Blood, Hooping Cough, Difficulty of Breathing, Influenza, Quinsæ, Phthisis, Croup, and all disorders arising from colds; Price 37½ cents per bottle.

For sale wholesale and retail, by J. P. Hall, Jr., sole agent, No. 1, Union street, corner of Elm street; Asa Bel Boyden, Hallowell, Me.; Charles Hollister, Portland, Me.; E. Holden, corner of Beacon and Church streets; A. Geyer, Hanover st.; John White, Jr., School st.

Also, retailed by most of the Apothecaries and country stores throughout the country. Jan 26

BOSTON TRUSS MANUFACTORY.

J. F. POSTER, Agent. The subscriber having mostly relinquished his former business, will now attend to the business of making, fitting, and repairing Trusses. After having tested Trusses of his own make for fifteen years past, and during that time has been employed in making and fitting Trusses for various individuals, which have proved very efficient in most cases, especially in the cure of the various diseases of the groin, and now offers his services to those who stand in need of the article in confidence of giving entire satisfaction to those who may please to call on him, as he will attend to them personally.

Among the variety of Trusses made and sold by J. F. Poster, are Patent Elastic Spring Trusses, with Spring Bands, Trusses having elastic bands, &c. These give relief in all cases of rupture, and in a large portion produce a perfect cure. They can be worn day and night. Improved Hinge and Pivot Trusses—Unilateral Spring Trusses, and Trusses with ball and socket joints.

The subscriber in consequence of the increasing demand for his Trusses, has now in his employ, a man of as much integrity as any other to be found in the country, for the purpose of making the Truss springs and parts belonging to the same—and one that has served a regular apprenticeship at the business, in Scotland. New springs inserted in Trusses at a small charge.

Price of Trusses, from two to eight dollars
